QUESTIONS WITH NOTICE

13 QWN4/26 Footpath Delivery in Berowra

(F2004/09803)

ASKED BY COUNCILLOR TILBURY

TO The General Manager:

What are the total number of recorded submissions/requests received from the community asking for the delivery of a footpath for Berowra, Richards Close – The Gully Road to End – item 102101 that is listed in the 2026/27 draft Delivery Plan & Operational Plan? Please include date of submission/request.

Response

Council has undertaken a search of available records relating to requests for a footpath in Richards Close, Berowra.

While Richards Close has been included within Council's footpath prioritisation process for a number of years, Council has not been able to identify records that would enable the total number and dates of all historical submissions or requests relating to this location to be verified.

Council notes that the project was previously assessed under Council's Footpath Improvement Program methodology and allocated a score within the community request criterion. However, the records supporting that assessment are not readily available to confirm the exact number or dates of requests received.

The prioritisation of footpath projects is based on Council's adopted assessment methodology, which considers a range of parameters including located access to key destinations, road type, environment, pedestrian demand, network connectivity and community requests. All factors are given a weighting with requests allocated >10% of the weighting criteria

(F2005/00163)

ASKED BY COUNCILLOR TILBURY

TO The General Manager:

What is the status of the installation of Council’s permanent signage, between the Hawkesbury River railway station and Kangaroo Point, associated with the shared pathway and Brooklyn boardwalk, that opened its last stage for public use in July 2025?

Response

Council's permanent signage associated with the Brooklyn Shared Pathway and Boardwalk project is currently in development.

Following a review of available options, Council engaged EyeJack to deliver the interpretive signage design and associated augmented reality (AR) content for the boardwalk. The development of the AR content and associated signage has taken longer than originally anticipated.

The current program is:

- Design and animation development for the interpretive signage is anticipated to be completed by mid-July 2026.
- Preliminary designs for the broader wayfinding and place signage within Brooklyn are anticipated to be completed by the end of June 2026.
- The preliminary designs will be exhibited to the Brooklyn community for consultation for approximately 4–6 weeks.
- Following consideration of community feedback, the designs will be finalised and prepared for fabrication.
- Fabrication and installation of all signage is currently anticipated to be completed by September 2026.

In addition to the Kangaroo Point Boardwalk opening, Council sought to freshen street signage in the following locations:
